Volume 73 No. 6 SPECIAL SECTION

November 2025

CONTENTS: SPECIAL SECTION on Development trends in urban systems

Development trends in urban systems

Łukasz Sadowski, Agnieszka A. Tubis, Kristina Ciziuniene

Smart, sustainable, and resilient: The triple imperative of urban transport transformation

Agnieszka A. Tubis, Łukasz Sadowski

Enhancing mobile eye-tracking in extreme urban lighting conditions

Marta Rusnak, Zofia Koszewicz, Franciszek Hackemer, Izabela Garaszczuk, Andrew T. Duchowski, Rafał Karnicki

Digital maturity in tram systems: Model design and practical application

Agnieszka A. Tubis, Mateusz Rydlewski, Magdalena Skiba

Synthetic urban agglomeration modelling to enable big data applications in transportation systems

Michał Zawodny, Piotr Mackiewicz

Geographic Information System-based assessment of cyclist safety in urban environments

Kinga Romańczukiewicz, Justyna Górniak-Zimroz

Pedestrian wind comfort in large cities

Agnieszka Kocoń, Renata Kłaput, Aleksander Pistol, Agata Szeląg

Metaheuristic optimization for efficient construction management of building projects

Anna Jakubczyk-Gałczyńska, Agata Siemaszko, Maryna Poltavets

Decision tree models for technical due diligence in land development

Marcin Waga, Elżbieta Radziszewska-Zielina, Bartłomiej Sroka

Bridging stakeholder perspectives to improve residential construction quality in growing urban environments

Joanna Iwko, Anna Dobrowolska, Agata Klaus-Rosińska, Dorota Kuchta, Karol Pochybełko, Dariusz Skorupka, Dominika Dudziak-Gajowiak

Funicular shaping method in the iterative design of reinforced concrete arches with variable cross-section in urban areas

Tomasz Stęplowski

Sustainable rehabilitation of urban sewers using in-situ lining techniques

Tomasz Abel
