

ARCHIVES of ACOUSTICS

QUARTERLY, Vol. 51, No. 1, 2026

Research Papers

T. Li, L. Zheng, Z. Bi, H. Ji, <i>Application of acoustic metamaterials in the design of muffling unit of internal combustion engine</i>	3
Z. Wang, L. Du, G. Yu, <i>Analysis on modal distribution and modal density-based crossover frequency in cabin-sized enclosures</i>	25
Q. Lu, X. Huang, R. Li, M. Li, D. Zhu, <i>TimeGAN and coordinated attention prototype network based prediction model for infrasound signal</i>	37
P. Kleczkowski, P. Małecki, D. Młynarczyk, <i>Comparative perceptual assessment of sound quality: Cone versus distributed mode loudspeakers</i>	57
Ł. Pawelec, K. Słowik, A. Lipowicz, <i>Influence of facial, head, and neck dimensions on vocal acoustic parameters in polish speakers</i>	75
A. Nowicki, J. Tasinkiewicz, P. Karwat, N. Żołek, I. Trots, R. Tymkiewicz, <i>Ultrasonic estimation of pressure dependent non-linearity index in liver</i>	93
K. Munim Salehin, Md.K.M. Khan, A. Rahman, <i>An empirical approach to investigate environmental effects on acoustic signal speed in oceanic layers</i>	107
T. Sun, H. Wang, L. Chen, H. Xu, <i>An improved dynamic time warping algorithm for active sonar signal matching</i>	131
G. Li, P. Tan, R. Ma, F. Li, X. Zhang, H. Tian, <i>Study on dual-stage amplification cascaded piezoelectric transducer for high-power applications</i>	145

Technical Notes

A. Yori, J.L. Barros, R. Torres, F. Figueroa, <i>Laboratory evaluation of underwater acoustic attenuation provided by air bubble curtains</i>	161
J. Zhang, Z. Li, Y. Li, Z. Peng, <i>Similarity analysis and target strength correction of non-proportional scaled models based on highlight model theory</i>	183
K. Kosała, <i>Cube-shaped sound-insulating enclosures: Experimental tests and calculation models</i>	197

OSA 2025

M. Pater, L. Leniowska, M. Grochowina, <i>Active vibration suppression of a thin circular pipe</i>	211
A. Wójtowicz, T. Kamisiński, J. Rubacha, <i>Flanking sound transmission in massive-lightweight connections</i>	223
